Dear Parents

Ownership changes of The Shrubbery School

We are writing to inform you of some recent changes to the ownership structure of The Shrubbery School. As you may be aware the school has been under the ownership of Mr Eric Allen and the estate of the late Mr Paul Terry for a number of years. However, it has become increasingly clear of a need for change in this structure in order to continue to provide financial security and investment in the school.

Mr Eric Allen has now purchased the school in order to provide security for the future. The estate of Mr Paul Terry will have no continuing involvement in the school. The Shrubbery School is now trading as The Shrubbery School Limited.

The governing body of the school has remained informed of the transaction throughout the process and is absolutely supportive of Mr Allen and his objectives for the school going forward. Under this new corporate structure, Mr Allen and the other directors of The Shrubbery School Limited, Mrs Penelope Cullum –Kenyon and Mrs Judith Cullum-Kenyon are fully committed to the future development and continued investment in the school for many years to come.

Please be assured there are no planned changes to the operations of the school and you should see no visible differences in the way the school is run on a day to day basis. Nor will you see any change to the support and care provided to the pupils by all our staff.

The Directors, the governing body and Mrs Atkins remain clear that their primary objective and responsibility continues to be the continued development and wellbeing of current and future pupils of the school. The changes set out above unequivocally support that objective.
